DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA–2015–0028]

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated March 16, 2015, Placerville & Sacramento Valley Railroad, Inc. (PSVR) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 215. FRA assigned the petition Docket Number FRA–2015–0028.

PSVR owns a former St. Louis Southwestern Railway (SSW) bay window caboose, identified as Car Number SSW 48. This car turned 50 years old from the original date of construction in May 2015 and is therefore restricted in accordance with 49 CFR 215.203(a) and required to be stenciled in accordance with 49 CFR 215.303. PSVR is requesting that the stenciling requirement be waived. In

addition, PSVR requests a special approval to continue to use this caboose in accordance with 49 CFR 215.203(b).

In support of its petition, PSVR stated that it is a noninsular tourist railroad. The caboose is used in passenger service for tourist excursions on the PSVR system. The caboose began operation in this service in September 2014 (at which time it was not yet 50 years old), following an inspection and completion of a successful single car air brake test. This caboose has been examined and deemed safe to operate under the conditions set forth in PSVR's petition on Class 1 track for passenger service. The territorial limit of PSVR's operation is on the former Southern Pacific Placerville Branch in Sacramento and El Dorado counties owned by the Sacramento-Placerville Joint Powers Authority from approximately Milepost (MP) 111 to approximately MP 142. The caboose will operate only on this territory, and will not be used in interchange service. PSVR proposes to operate the caboose with a speed limit of 30 mph.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590.
